Bactisan Dispenser

The System

A one hand operated spray dispenser for a new way of hand cleansing, without the need for water, soap or towel. Especially conceived for the personal protection against bacteria.

Why?

There are circumstances where extra hygiene is preferred. The combination of a spray dispenser with the Bactisan Hand Sanitizer results in a:

- Fast and efficient way to clean the hands.
- Reduces the amount of pathogenic micro-organisms.
- Reduces the possibility of cross-contamination.
- Helps to comply with HACCP regulations.

The Advantages

- Kills 99,9% of most common germs and bacteria.
- Fresh and soft.
- Hygienic.
- Without the use of water, soap or towel.
- Dries quickly.
- Easy to use.
- Low in cost.
- The liquid is 99% biodegradable.
- Secured with an integrated lock.

The Technology

A dispenser with high quality plastic spray pump, which dispenses the sanitizer that is packed in a plastic pouch. The pouch is easily installed and features a patented Clean Clic® connector, which opens and closes automatically whenever the pouch is removed.

The Product

Bactisan Hand Sanitizing Spray has proven in laboratory tests that it kills at least 99,9% of most bacteria that are present on the hands. It has a refreshing and cooling effect on the skin. It contains a lactic acid that is by nature present in the skin and is part of the natural moisturizing factor. It realizes longer moisture retention in the skin, keeping it soft.

Packaging

Dispenser: 12 pcs single packed per carton.

Refill (300 ml): 12 pcs packed per carton.

Dims. dispenser: 21 x 13 x 9.5 cm (8.2" x 5.1" x 3.7")
