

AUTOsense

The no-touch hand towel dispenser

AUTOsense

the no-touch hand towel dispenser

THE AUTOMATIC CHOICE

AUTOsense is the latest method of controlling your wiping, whether it be in your washroom, kitchen or food preparation areas. If you are concerned about the spread of bacteria and germs in your organisation or decreasing your costs, the AUTOsense system will give you that control.

No more paper towels littering your floor or great handfuls being used where one would have done the job. AUTOsense can increase the efficiency of your operation. By holding your hand close to the sensor, a fresh, clean and ready to use towel is automatically dispensed.

Features

- Increase HACCP control by eliminating cross contamination
- Manage wastage and costs by controlled dispensing options
- Quick and easy to maintain
- Robust dispenser
- 2 keys for greater security
- Up to 36,400 towels before replacing batteries
- An optional power adaptor available (alternative to using batteries)
- Choice of two dispenser colours to complement any decor
(black: D-51 or white: D-50)

Paper towel selection

AUTOsense Deluxe AS300 - 100 metre deluxe 3 ply roll. Up to 500 towels. Ideal for health, medical and aged care. A very soft and extremely absorbent towel.
